

Create or Update an Event

Required access: WordPress Editor or Administrator. Editor is enough.

1	Go to rebekahspureliving.com/wp-admin and sign in with your own account.
2	Select Events . For a new event choose Add New Event ; for an update choose the correct title and Edit .
3	Keep a new event as a Draft until every required detail is complete.
4	Enter the exact approved title and complete description in Visual mode.
5	Choose the correct store category: Clarkston, Grand Blanc, Lake Orion, or Lapeer.
6	Enter the start and end dates and times. Use All Day only when appropriate.
7	Confirm the America/Detroit time zone.
8	Choose an existing venue and organizer when possible.
9	Add the cost, external event website when needed, and a 16:9 featured image with alt text.
10	Preview the event at desktop and phone size. Fix every incorrect or missing detail.
11	Select Publish or Update once and wait for confirmation.
12	For a cancellation, set Events Status to Canceled, add a clear note, and update it. Do not immediately delete it.
13	Clear only the applicable page, record, Breeze, or Varnish cache.
14	Open rebekahspureliving.com/events/ with no extra address text.
15	Find and open the event. Check the title, store, date, time, image, details, and every public link.
16	Repeat the check on a phone-size screen and confirm nothing runs off the side.

This lesson does not include user-account management, event tickets, or RSVP setup.
